As an alternative, add quite a few hyperlinks to survey questions that ask pointed questions to help you in assigning a price to your ebook.

One other strategy is to check out prices by making a number of duplicate sales pages with completely different costs on each page. Be certain your gross sales copy is exactly the same on

every page, and consists of your promoting-handle sentence. Then work out for each page the conversion ratio between guests to your website and sales of your book. This will let you know what your optimum price is.
