An efficient approach for figuring out a value is to send out a survey to your current customers. If these prospects have already bought an ebook from you, ask for their opinion in terms of price. Do this by creating a sales page for the new book, however do not include a value on that page. One other technique is to check out prices by creating a number of duplicate gross sales pages with different costs on every page. Make certain your sales copy is precisely the identical on every web page, and consists of your selling-handle sentence. Then determine for every page the conversion ratio between guests to your web site and sales of your book. This may let you know what your optimum value is.
