Resolve in case your goal is to get large distribution and most exposure. This purpose is aimed at drawing prospects to your enterprise or service, or to establishing the credibility of your reputation. If this is your predominant aim, you should intention to maintain your price on the low side. Some authors have even priced their ebooks at a profit loss to attract a high number of new customers. The hot button is to find a value that maximizes your income and the number of books you sell.

This is a superb pricing technique if you are seeking to acquire lengthy-term customers. Long-term prospects are extraordinarily probably to purchase from you once more and again ? so long as the primary e-book they buy is of distinctive quality and useful to the customer.

After you determine your aim, you have to figure out what your audience's want is on your ebook. For instance, does your book resolve a particular drawback? If it does, and solves it in a method that hasn't been written about in one hundred other ebooks, you will be in a position to achieve high

gross sales at a high price. If your e book solves an issue or answers questions in a new and unique approach, it's best to price your ebook as excessive as you possibly can go. If you wish to see massive earnings over buyer draw, aim for an audience that is on the lookout for straightforward solutions to their issues at a low price. If your e-book is geared toward solving one explicit problem reasonably than general recommendation, then you can cost more. Start on the highest worth the market will bear to herald the largest income, and plan to discount the book a variety of occasions all through the year.

## Advertising Strategies

The key that unlocks the gross sales potential of your ebook is to discover a single sentence that becomes your selling handle. This sentence states what question or downside your e book answers and the benefits your book can provide. Then remember to use that sentence in each piece of gross sales

and promotional material, and each time anyone asks you about your ebook.

Another strategy is to check out prices by creating a number of duplicate gross sales pages with totally different costs on every page. Make sure that your sales copy is strictly the similar on each web page, and consists of your selling-handle sentence. Then determine for each web page the conversion ratio between visitors to your site and sales of your book. This can let you know what your optimum worth is.
